

EduCOVER

Transforming Workforce Coverage with Innovation

OVERVIEW

EduCOVER aims to streamline the process of classroom teacher coverages, easing the stress in the post-COVID era. Our software uses advanced databases and organizational technologies to provide a highly usable and rapid solution for finding, assigning, and tracking classroom coverages.

It ensures balanced distribution across the organization and provides transparent reports for business and administrative oversight.

Key Challenges & Solutions

Managing Effective Coverages

We offer a customizable, user-friendly interface that streamlines the assignment process, ensuring swift and accurate coverage.

Ensuring Accurate Accounting and Audits

Our platform was built with the intent to provide clean, concise reports that enhance oversight and simplify audits.

Balancing Participation Across all Teachers

EduCOVER empowers districts to apply their own coverage policies to ensure equitable participation.

Core Features & Benefits

Easily record teacher absence.

Identify which teachers need assigned class coverage.

Quickly identify available teachers for coverage

Provides an accurate list of teachers who can provide coverage.

Validate assigned classroom coverage

Teachers or office staff validate acceptance of classroom coverage.

Reporting Coverage and Absence

Generate reports on absence and assigned coverages.

Why Choose EduCOVER

Unique Coverage Software

The only application addressing this specific need in school systems.

Improves Organizational Efficiency

Simplifies the process of assigning teacher classroom coverage.

Apply Organizational Policy

Uniformly manage organizational coverage policy with auditable reports.
